

MONSOON MATTRESS

Colour: Purple

Monsoon is our most comfortable mattress, combining pressure-relieving properties with high hygiene standards and easy maintenance to ensure a safe, cool and comfortable sleeping experience.

- Pressure relieving CMHR memory foam that moulds to the body and provides superior comfort
- Breathable, waterproof and wipe-clean cover that keeps the surface dry and fresh
- Heat welded seams that prevent liquid penetration

The Monsoon mattress is specifically developed and suitable for mental health care, custodial settings, youth care and other environments with high safety requirements. Suitable for patient bedrooms.

PRODUCT DATA

Material

Polyurethane with core made from fire-retardant CMHR foam (Combustion Modified High Resilience).

Maintenance

For cleaning of superficial dirt, use a disposable wipe and a warm solution of mild, neutral detergent. Abrasive cleaners should not be used. Disinfect when necessary with a mild chlorine solution (0.1%, equivalent to 1000 ppm). Avoid cleaning agents containing biological or phenolic substances. All cleaning and disinfecting agents must be thoroughly rinsed off, and the cover should be completely dried before storage or reuse. The mattress should be turned regularly, both from top to bottom and side to side, to allow the foam core to recover and prolong its lifespan.

Technical data

HSP880: H 180 mm, L 1900 mm, W 900 mm. Weight: 11,5 kg.

Sustainability

Fire retardant to BS 7177:2008 source 5. Dispose of as combustible waste.

Delivery

Delivery time 6-8 weeks. Please note that unforeseen events may affect the delivery schedule. For current delivery times at the point of order confirmation or prior to placing an order, please contact us at info@healsafeinterior.com

Warranty

2 years. Applies under normal use. Full warranty is provided for manufacturing defects.

Manufacturing/Production

Europe

More product information

Monsoon features a responsive CMHR (Combustion Modified High Resilience) foam core – an elastic polyurethane foam with built-in flame-retardant properties that offers enhanced fire safety and long-term shape retention. The core provides even pressure distribution, helping the user to relax and achieve better sleep quality. The breathable cover allows air to circulate and helps dissipate heat and moisture, reducing the risk of overheating or discomfort while maintaining a stable microclimate during extended periods of rest. The waterproof, wipe-clean surface facilitates daily cleaning and disinfection, while the heat welded seams protect against liquid ingress and help keep the foam core clean and odour-free. Improved comfort and sleep quality have a direct positive impact on both physical and psychological wellbeing and are a key factor in quality of life for users. Monsoon combines the highest level of comfort with robust hygiene and practical functionality.
