

SCORPIO COLLAPSIBLE MATTRESS

HSP858 H 76 mm, W 900 mm, Length 1900 mm · Weight 7 kg

Colour: Blue

The Scorpio collapsible mattress is a secure and functional solution designed for environments with particularly high demands on observation, safety and hygiene. Its construction minimises the risk of barricading and supports safe visibility within the room.

- Tamper-resistant, fire-retardant polyurethane-coated nylon cover for maximum durability and easy cleaning
- Heat-welded, waterproof seams that prevent liquid penetration and facilitate disinfection
- Collapsible tri-fold construction prevents the mattress from being stood on its end, blocking visibility or used as a barricade.

The Scorpio collapsible mattress is specifically designed for psychiatric care, forensic psychiatry, correctional facilities, youth care, and other high-security environments where continuous observation, safety, and hygiene are essential. Suitable for seclusion rooms and patient bedrooms.

PRODUCT DATA

Material

PVC (polyvinyl chloride) double-stitched and heat-welded seams for resistance to liquids and tampering. Core made from fire-retardant CMHR foam (Combustion Modified High Resilience).

Sustainability

Fire performance tested to BS7177 Crib 5 and Crib 7. Tear strength tested to BS 3424:1982 – minimum 50 N (warp/weft). Dispose of as combustible waste.

Warranty

2 year. Applies under normal use. Full warranty is provided for manufacturing defects.

Maintenance

Wipe clean with a disposable cloth and mild, neutral detergent. Disinfect when necessary using a weak chlorine solution (0.1%, equivalent to 1000 ppm). Avoid abrasive, biological or phenolic-based cleaners. Rinse thoroughly and dry before reuse. Turn the mattress regularly to maintain its shape and prolong its lifespan.

Delivery

Delivery time 6-8 weeks. Please note that unforeseen events may affect the delivery schedule. For current delivery times at the point of order confirmation or prior to placing an order, please contact us at info@healsafeinterior.com

Manufacturing/Production

Europe

More product information

The Scorpio collapsible mattress combines safety-focused design with high functionality. The patented collapsible tri-fold design prevents the mattress from being propped against walls or windows, reducing the risk of barricades and improving observation. The tamper-resistant, polyurethane-coated nylon cover is engineered to withstand heavy wear and attempts at damage, while remaining easy to clean. Heat-welded seams make the mattress completely waterproof, protecting against liquid ingress and ensuring excellent hygiene performance. The fire-retardant CMHR foam core (Combustion Modified High Resilience) – an elastic polyurethane foam with built-in flame-retardant properties that provides enhanced fire safety and long-lasting shape retention – offering both stability and comfort for the user. The Scorpio Collapsible Mattress is available in fire-retardant versions tested to BS7177 Crib 5. As part of the Scorpio range, the collapsible mattress complements other models in the series, including the standard version and models designed to fit Ryno beds.
