

BATHROOM MIRROR, WHITE

Colour: White with black edges

Also available as: Badrumsspegel, vit, Badrumsspegel, kundanpassat format, Utbytbar spegelglas för badrumsspegel

The ligature resistant Bathroom mirror, white combines high safety standards and functionality with an attractive appearance.

- Shatterproof and scratch-resistant mirror made of 6 mm polycarbonate with minimal image distortion.
- Water resistant frame with bevelled edges and tight wall fit to reduce ligature risks.
- Replaceable mirror panel for easy maintenance and long product lifespan.

This mirror is especially suitable for psychiatric clinics, youth care facilities, treatment centers, and correctional environments, but is also ideal for other settings with high safety requirements. Made from scratch-resistant, unbreakable polycarbonate, the mirror provides a clear and natural reflection. High-quality image reproduction is important for user self-esteem and well-being, offering a true and undistorted view—an essential aspect in environments where users may be particularly vulnerable. The frame is made of high-pressure laminate with a durable, scratch-resistant surface that is easy to clean and maintains its appearance over time. The bevelled edges and tight fit against the wall help minimize ligature points, contributing to a safer environment. The mirror glass is replaceable, ensuring easy servicing and long-term use. Suitable for installation in bathrooms, patient rooms, or communal areas. Design by: Healsafe Interiör

PRODUCT DATA

Material

Frame: Water resistant High Pressure Laminate (HPL) Mirror panel: 6 mm high-quality polycarbonate.

Maintenance

Clean the frame surface with a mild liquid detergent and a soft, clean cloth using circular motions. Rinse with clean water and dry with a soft cloth. For more stubborn dirt, a soft nylon brush may be used in the same manner. Alcohol-based disinfectants may be used on the laminate surface when necessary. Never use abrasive cleaners or rough tools such as scouring pads, as these may scratch or damage the surface. Regularly check that all visible screws are tightened and that no gaps have formed. The mirror surface features a nano-treated coating that is resistant to chemicals and most acid attacks. Graffiti or heavy soiling can be removed using solvent-based or graffiti removal agents. Clean with a soft, clean cloth and a mild liquid detergent. Do not use abrasive chemicals or rough sponges.

Technical data

JT410: W 380 mm, H 600 mm, D 21 mm, Weight: 4.8 kg

Sustainability

The frame is made from high pressure laminate, a water resistant, strong, and durable material that ensures a long product lifespan. The mirror glass is scratch-resistant (although it may be scratched by sharp objects), easy to clean, and retains its appearance over time—making it a durable and practical choice for demanding environments. The mirror panel is replaceable which makes the product very durable. It can be ordered through Healsafe Interiör. HPL frame: recyclable as combustible waste Mirror glass: recyclable as hard plastic

Delivery

Delivery time: 4–6 weeks. Please note that unforeseen circumstances may affect delivery time. For inquiries, please contact: info@healsafeinterior.com

Manufacturing/Production

Sweden

Warranty

5 years. Applies under normal use Full warranty against manufacturing defects.

Installation

The mirror is mounted using tamper-resistant security screws. Ensure that it is installed on a flat wall surface to eliminate any gaps between the mirror and the wall.
