Also available as: (Välj färg) Basfärger (kortare leveranstid), Övriga färger

Also available as: (Ryno färgval) Moonwalk grey, Granite, Icon Purple, Cool Green, Epic Blue, Vegas yellow*, Lime green*, Thunder grey*, Dusty blue*, Dusty pink*, Teal*, Warm terracotta*, Violet purple*

A low-seated, comfortable chair offering relaxed and stable seating. Its ergonomic, hard-to-grip design with rounded shapes enhances safety and comfort.

- The one-piece design chair offers exceptional strength and comes with a lifetime warranty.
- Weight of 13,5 kg, can be additionally weighted up to 80 kg for added stability and functionality
- Easy to clean for low-maintenance care

The Ryno lounge chair is designed to support a unified, safe, and comfortable environment with its robust construction, round shapes and ergonomic design. The chair creates a safe atmosphere by reducing the risk of injury, self-harm, or being used to harm others. A chair with a lower seat height and greater comfort than a dining chair, offering a more relaxed seating position without being a full armchair. It remains stable and functional, ideal for communal areas where both comfort and practicality are important. With its durable and functional design, it contributes to a caring environment where both staff and users can feel safe and comfortable. The Ryno lounge chair is part of an extensive product series, allowing for a cohesive and tailored interior design. The chair is available in a wide range of colors, designs, and options, as well with a separate [seat cushion Ryno](#). With its UV-resistant and waterproof properties, the chair is also suitable for outdoor use. Perfect for use in both mental health care and correctional services. **A more sustainable choice** – RYNO Ocean Green contains 50% recycled material from fishing nets and helps reduce carbon emissions. Available as an option. Contact us at info@healsafeinterior.com if interested.

PRODUCT DATA

Maintenance

To keep the furniture clean, wipe it down with a soft cloth. Use mild household cleaners, degreasers, or antibacterial cleaning agents for effective cleaning. Avoid abrasive materials and cleaning products, as these can scratch and damage the surface. Steam cleaning or pressure washing should not be used, as it may cause damage to the surface. Solvents should be avoided, as they pose a risk of surface damage. Be cautious with bleach and chlorine-based disinfectants, as they can negatively affect the surface. Do not place the furniture near heat sources to avoid damage to the material. Extreme temperature fluctuations (e.g., a cold night followed by a warm sunny day) can cause the air inside the product to expand, leading to temporary changes in its shape. Care instructions.

Sustainability

Ryno chairs have a long lifespan and are fully recyclable, as polyethylene can be melted down to create new products. Strength and stability test for 500,000 cycles of serial use (BS EN 16139: 2013 Level 2). Complies with fire safety standards UL94 HB and British Standard 5852: 2006 ignition source 5. UV resistance tested to UV21+ stating it can withstand 21 000 sunlight hours.

Technical data

HSP101: Size: H 780 mm, W 600 mm, D 760 mm. Seat height: 420 mm. Weight: 13,5 kg. Additional weight of up to 80 kg can be added as an option. Small holes can be optionally drilled in the seat, providing drainage, to make it suitable for outdoor use.
