

ROYA WALL SHELF

Colour: The product is available with laminate in ash or walnut. Other laminate finishes are available upon request.

The Roya wall shelf is part of a furniture series developed for challenging environments. The series offers adaptable solutions for sleeping, studying, and storage, tailored to the specific needs of each facility.

- Compact and robust construction with fixed wall mounting for maximum safety and long-term durability
- Intelligently designed shelves – the angled shape makes it impossible to wedge objects that could be used to attach a ligature, without compromising storage functionality
- Carefully developed design language that combines safety with a calm and harmonious aesthetic

The wall shelf is particularly suitable for youth care, secure care environments, and correctional settings. The shallow shelves provide full visibility, support inspection procedures, and reduce the risk of objects being hidden or becoming lodged – yet are still deep enough to store items such as paperback books. Each shelf is subtly angled outward from the wall, making it impossible to wedge items such as pens or sticks in a way that could create a ligature point. A well-considered solution for high-risk environments that does not compromise the shelf's storage function. The construction is based on traditional joinery and gluing techniques, resulting in a strong and stable piece of furniture with no visible hardware or detachable parts. This enhances both safety and durability over time. The plywood edges feature broad curves and rounded corners that reduce the risk of injury in the event of a fall. Fixed mounting also prevents components from being broken off or used as weapons. The shelf is made from plywood, ensuring strength and resilience. The laminated surface is scratch-resistant, easy to clean, and maintains its appearance over time. The name Roya is derived from the Persian word for dream and sleep – reflected in the furniture's soft and harmonious lines. Its sibling series [Aram](#) features a more geometric design language. Design: Healsafe Interiör Recommended placement: patient rooms

PRODUCT DATA

Material

Frame made of plywood with a laminated surface.

Maintenance

Clean the surface using a mild liquid detergent and a soft, clean cloth in circular motions. Rinse with clean water and dry with a soft cloth. For more ingrained dirt, a soft nylon brush may be used in the same manner. Alcohol-based disinfectants may be used on laminate surfaces if needed. Never use abrasive cleaning agents or rough tools such as scouring pads, as these may scratch and damage the surface. Check regularly that all visible screws are securely tightened and that no gaps have formed.

Technical data

HSI802: Dimensions H 360 mm, W 600 mm, L 200 mm.

Sustainability

The product is made from plywood – a strong and durable material that ensures long service life. The laminated surface is scratch-resistant, easy to clean, and maintains its appearance over time, making it a sustainable and practical choice for challenging environments. Plywood components can be recycled as wood.

Delivery

The furniture is tailored to the facility through a close and collaborative process with Healsafe Interiör. The furniture can be adapted to existing environments, and multiple laminate options are available. Optional visualization based on your room dimensions is offered on request. Delivery time is 8–12 weeks from final order confirmation. Please note that unforeseen events may affect the delivery schedule. For inquiries, please contact us at info@healsafeinterior.com

Manufacturing/Production

Sweden.

Warranty

The warranty period for our products made from laminated plywood with treated edges is 2 years from the delivery date. During this period, the warranty covers any manufacturing defects, material faults, and surface treatment issues. It also includes installation-related defects in cases where Healsafe Interiör's appointed or in-house installers have carried out the assembly. The warranty covers the following areas:
Manufacturing defects: Defects resulting from production or material faults
Delamination: If the laminate layers separate due to faulty adhesive or production process
Surface treatment: Issues such as peeling, staining, or visible deterioration due to surface treatment errors

Installation

The wall shelf is delivered assembled. The wall shelf is mounted with security screws. We offer installation services for fixed interior furniture. Please notify us when submitting your inquiry, and we will assist in preparing a quote for this service. Installation is most commonly requested for larger projects. When choosing our installation service, we assume responsibility for the product warranty related to correct installation. If the installation is carried out by yourself or a third party, it is important to follow the provided instructions and ensure proper assembly. The product warranty does not apply if the product is not installed in accordance with the instructions.
