

CURTAIN AIR

The Curtain Air has a sheer texture that offers a degree of privacy, while still allowing light to filter through. It also provides some sound absorption and adds a soft touch of colour to the room.

- Prevents visibility from the outside
- Adds warmth and colour to the room
- Complies with standards for fire safety, hygiene, and durability

Suitable for patient lounge.

Warranty

Warranty covers any manufacturing defects.

More product information

The ability to control privacy from the outside is an important aspect of personal autonomy. The Curtain Air allows natural light to filter into the room while enhancing a nurturing atmosphere through soft materials and colours, making it ideal for shared spaces. Incorporating curtains into the interior design helps reduce the institutional feel and supports a more welcoming environment. We offer a wide selection of colours and textures to support a harmonious and well-balanced interior. Combined with the J-trac curtain rail system, the Curtain Air provides a cost-effective and visually appealing alternative to built-in motorized blinds.
