

SHOWER CURTAIN

Safe shower curtains – enhancing privacy and patient autonomy.

- Increased privacy for patients/clients
- Compliant with strict standards for fire safety, hygiene, material strength, and durability
- Washable for easy maintenance (machine washable at 60°C, hygiene wash at 72°C)

Safe shower curtains help create a less institutional environment. Combined with the J-trac curtain rail system, they provide a safe solution in bathrooms where supervision is typically limited. Shower curtains also help effectively reduce the risk of moisture damage in bathroom environments. We offer a variety of colours to support a harmonious and therapeutic setting. Made to order in custom sizes. Suitable for bathrooms.
