

PULL HANDLE

Variants: L 450 mm, L 600 mm

Variants: Blå, Vit

A robust pull handle designed for safe and supportive use in challenging environments with strict requirements on hygiene and durability. The slim profile and smooth, rounded edges provide a secure grip while eliminating potential ligature points.

- One-piece stainless steel construction for high corrosion resistance and long service life
- Anti-ligature design without protruding elements, preventing attachment of cords or objects and enhancing safety
- Can be installed horizontally or vertically to suit user needs

The pull handle is particularly suitable for mental health, correctional services, forensic psychiatry, custodial settings, youth care and other secure care environments where stability and reliable support are essential. The 32 mm ergonomic grip offers a natural and secure hand position and is comfortable to use even for individuals with reduced grip strength. The durable surface is easy to clean and supports infection control routines in hygiene-sensitive environments. Available in 450 mm and 600 mm, in satin-finished stainless steel or antibacterial powder-coated in blue or white. To ensure a secure and tamper-resistant installation, the pull handle is always fitted using tamper-resistant security screws, supplied with the product. Suitable for any environment where a secure pull or door handle is required.

PRODUCT DATA

Material

Stainless steel or powder-coated stainless steel.

Technical data

HSA106: L 450 mm, D 32 mm. HSA107: L 600 mm, D 32 mm.

Delivery

Delivery time 6-8 weeks. Please note that unforeseen events may affect the delivery schedule. For current delivery times at the point of order confirmation or prior to placing an order, please contact us at info@healsafeinterior.com

Manufacturing/Production

United Kingdom

Maintenance

Clean the product regularly with a soft, dry cloth, or with a warm, damp cloth if needed to remove grease or dirt. Do not use abrasive pads, strong cleaning agents or chemicals.

Sustainability

Manufactured from highly durable material with a long service life. Can be recycled as metal.

Warranty

2 years. Applies under normal use. Full warranty is provided for manufacturing defects.

Mounting

Installed using 6 tamper-resistant security screws, supplied with the product. For a secure installation, the screw and wall plug must be suited to the wall material. If the supplied fixings are not appropriate, an equivalent or better solution designed for that specific wall type should be used.
