TOILET PAPER HOLDER

A safety-enhancing and user-friendly toilet paper holder that combines security, functionality, and clean design. Developed for environments where safety is essential, it contributes to a secure and hygienic bathroom setting.

– Releases from the wall bracket under abnormal load, reducing the risk of accidents

– Made of flexible material that cannot be broken off or sharpened into dangerous edges

– Rounded corners and smooth contours that further reduce the risk of injury

The toilet paper holder is particularly suitable for all environments with high safety requirements, such as psychiatric care, youth care, treatment centres and correctional facilities. Suitable for both private and shared bathrooms (It is possible to order only the wall bracket or the arm if required. Please contact us at info@healsafeinterior.com)

Maintenance
The toilet paper holder can be cleaned with a soft cloth and mild liquid detergent. If necessary, it can be disinfected with alcohol-based cleaning agents. Never use cleaning products containing abrasives or sponges with rough surfaces.

Sustainability
The design and material of the toilet paper holder are carefully chosen to extend the product's service life. Vertical load tests have shown that both the holder and the wall bracket release at 9 kg. Tested by RISE/SP to withstand 1,000 releases while maintaining its shape and function. To be recycled as hard plastic.

Warranty
3 years. Applies under normal use. Full warranty is provided for manufacturing defects.

More product information
The wall bracket is designed with chamfered edges and flexible holders that prevent cords or straps from being attached – a measure that reduces the risk of self-harm and increases safety. The construction has been thoroughly tested to withstand repeated stress without losing its shape or function. The product is quality-assured by RISE/SP and developed in close collaboration with Region Hovedstadens Psykiatri in Denmark. Suitable for both private and shared bathrooms, it also improves hygiene by keeping the toilet paper stored securely off the floor. The holder is easy to install, and the bracket can be removed quickly for cleaning when required. For added functionality, multiple holders can be installed in the same bathroom to ensure paper is always available. Designed and manufactured in Sweden to meet high standards of safety, quality, and hygiene. It is also designed to harmonise with other products in the range, such as the bathroom shelf and shower shelf creating a cohesive and functional environment – while at the same time giving the bathroom an aesthetic lift and contributing to a more pleasant atmosphere.

Assembly
The wall bracket must be mounted against a completely flat surface to ensure a tight and stable connection between the bracket and the wall. This minimises the space behind the wall bracket and thereby prevents the possibility of attaching cords, straps, or similar objects that could be used for self-harm. The wall bracket is mounted with security screw JT-271. Installation must be carried out in accordance with the installation instructions
