Instruction for cutting the J-trac shower rail, 90° (B)

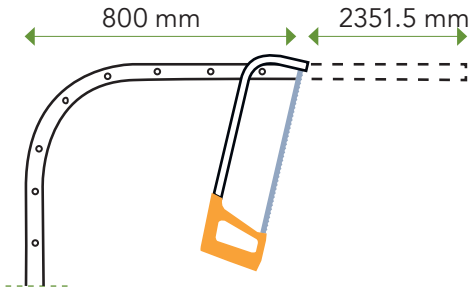

Example of Cutting (Right Side):

The two straight sections of 2715.19 mm can be cut to achieve the desired length and width.

If you want a total length of 800 mm on the right side:

- Cut 2351.5 mm from the straight end, as the end cap adds approximately 10 mm.

Specifikation

- Aluminium
- White
- Corner radius: 400 mm
- Total length (outer edge): 3141.5 mm (3151.5 mm incl. end stop)
- Straight length from the curve (inner edge): 2715.19 mm
